

ARCHAEOLOGY HERITAGE

3D models of BENAT 4 shipwreck

Partnership

Project

ROV 3D
BENAT 4

Vessels / ROVs

Janus II / APACHE

Date

November 2014

Project type

Archaeology heritage

Location

France

Water Depth

300 m

Scope Overview

In partnership with LSIS laboratory CNRS and the DRASSM, COMEX Innovation and Marine departments performed a tridimensional reconstruction of an antic amphora shipwreck from the 2nd century at 300 meters depth.

Survey

5:00 hours

Processing duration

1.5 days

3D Models' Resolution

1.5 mm/pix
