

WW2

AIRCRAFT

WRECK

3D models of JUNKER88 wreck

Partnership

Project

WW2 JUNKER 88

Vessels / ROVs

Janus II / APACHE

Date

September 2016

Project type

Aircraft Wreck

Location

France

Water Depth

55 m

Scope Overview

COMEX Innovation and Marine Departments in partnership with LSIS – CNRS performed a tridimensional reconstruction of the WW2 JUNKER 88 wreck, using ORUS3D system.

Survey and reconstruction were carried out in record time considering the size area of approximately 500 sqm and the high-resolution result.

Survey

04:00 hours of which only
20 mins of recording time

Processing duration

1 day

3D Models' Resolution

1 mm/pix
