

Multi-ambiance LED lighting

Depending on the length

- 500 mm Ref : CX 1664
- 2000 mm Ref : CX 1665

Description of the equipment:

The new multi-ambiance LED lighting system consists of arrays of several dozen LEDs, allowing for the management of 3 selectable ambiances from the control panel:

- Normal Ambiance for patients, with white-colored lighting.
- Intense Ambiance to facilitate the work of healthcare staff, with high-intensity white-colored lighting.
- Relaxing Ambiance for patients, with blue-colored lighting.

The diffuser of these arrays provides a wide illumination angle.

This new system offers several advantages:

- Improved lighting in the compartment due to the positioning of the new lighting system inside the device and its light intensity.
- Reduction in costs associated with the longer lifespan and low energy consumption of LED technology
- Creation of a soothing atmosphere for patients (based on feedback from several hospitals).

Main features :

- Power supply: 24 Vdc
- Consumption: 2.6A at 24Vdc
- Dimensions (CX 1665: 2000x320x10 mm / CX 1664: 500x320x10 mm)
- Operating temperature: -20°C to 55°
- Maximum operating pressure: 9 bar
- Illumination angle (at 25% of max lux): 100.86°
